

## Super Nutrient - Biological Odour control units

Liquid formulation for the support of Biological systems used in the commission stage and at times of limited nutrient availability

A solution of Nitrate and soluble micronutrients added to the irrigation water to build and maintain a robust biomass within the bio filter. Ensuring maximum performance and discharge consent compliance.

### Benefits:

Applied by peristaltic pump:

Fully biodegradable

Non-caustic

Non-toxic

Non-corrosive

Two year shelf life

### Specification:

Colour: Clear

Odour: Trace

Density:

Packaging: 25 ,200 Litre polys and 1000 Litre IBC
