SK3

Septic Tank Treatment

Effective Septic Tank Maintenance – Six Months' Supply in One Pack

SK3 is a biological septic tank treatment designed to maintain a healthy balance in domestic sewage systems.

By introducing high-performance bacteria, SK3 effectively reduces blockages, foul odours, and the need for frequent tank pump-outs, keeping pipes flowing freely.

Specifications

Form: Free Flowing Powder

Colour: Blue

Contents

Multi-strain bacteria, growth stimulants, surfactants to enhance breakdown.

Safe, biodegradable and non-toxic

Key Benefits

- ☒ Reduces blockages and foul odours.
- ☒ Lowers the need for costly tank pump-outs.
- ☒ Safe, biodegradable, and eco-friendly.
- ☒ Easy-to-use water-soluble sachets.

How it Works

SK3 contains a broad spectrum of selected bacteria that efficiently degrade organic waste into carbon dioxide and water, restoring the tank's natural balance.

Chemical cleaners (e.g., bleach) reduce SK3's effectiveness – use biodegradable detergents where possible.

Packaging

30g sachets (Carton of 6 – Six months' supply)

20kg bucket

300 x 30g sachets

Application & Dosage

Start-up/After Cleaning: 1 sachet per day for 4 days

Maintenance: 1 sachet per month

Simply drop in the toilet & flush.

Avoid bleach & harsh chemicals
for best performance.
